Eduard Antonoff

男 | 35岁 　📞 13269333400 　✉ edward.antonov@outlook.com

11年工作经验 | 求职意向：自然语言处理算法 | 期望薪资：20-40K | 期望城市：杭州

个人优势

Passionate about NLP, LLMs, and AI Agents. Experienced in designing and implementing RAG systems, agentic workflows, knowledge graphs, with a strong interest in knowledge representation and information retrieval.

工作经历

Gazprom 　自然语言处理算法　　　　　　　　　　　　　　　2022.01-2024.12

Validated and optimized synthetic data generation pipelines, ensuring data quality and addressing data scarcity challenges for model training.

Developed and implemented a Retrieval Augmented Generation (RAG) pipeline using a stateful orchestration framework. Created and deployed demo stands for testing and validation.

Enhanced model performance through advanced prompt engineering, NLP techniques and structured outputs, tailoring outputs to specific business applications.

Red Monsoon 　数据分析师　　　　　　　　　　　　　　　2019.01-2021.12

Applied classic machine learning techniques to analyze key business metrics and predict outcomes.

Processed large datasets to identify trends and patterns.

教育经历

Moscow Insitute of Physics and Technology 　硕士　　Data Science　　　　2023-2025

Moscow Insitute of Physics and Technology 　本科　　Big Data / Analytics　　2022-2023

Russian State Universtiy 　本科　　Linguistics　　　　　　　　　2010-2014
